EXAMINER'S AMENDMENT

1. Claims 1, 5-17 and 43 allowable over prior art of record.
2. Claim 5, line 1, "claim 4" has been changed to -- claim 1 --.
3. The following is an examiner's statement of reasons for allowance: The prior art of record does not appear to disclose or suggest a motivation to combine a surgical port device comprising: a tubular member having proximal and distal ends; a retention member that is slidably mated along and surrounding the tubular member; and especially, a flexible flange disposed at the distal end of the tubular member, wherein the flexible flange has a frusto-conical shape with a proximally-concave inner surface adapted to engage the body wall opposite a proximally-concave distal outer surface, the flexible flange extending radially outward from the exterior surface of the tubular member in a proximal direction toward the proximal end of the tubular member, and the flexible flange being adapted to fold radially inward such that the inner surface of the flexible flange contacts the exterior surface of the tubular member during insertion of the tubular member through a narrow opening in the body wall to thereby reduce diameter of the flexible flange during such insertion, and the flange having an annular lip radially spaced from the tubular member that projects outward from a central portion of a distal outer surface of the tubular member to provide a drip edge adapted to direct fluids around its periphery.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
